

Model Pricing

Kirk Voclain Photography is very interested in you and your career as a model.

We love looking for new models for modeling shoots that we do for various clients and jobs. We are always on the look out for new models with new looks.

Our job is to help you by providing you awesome images. Our favorite model is one who is in need of growing his or her portfolio. Remember, without awesome images, you simply do not have a modeling career. And we love it when models come up with ideas and suggestions on looks that they are hoping to achieve.

So if you are a model, professional or amateur, and you are interested in growing your portfolio, and becoming the best you can be, let us help you.

Our base price for a one hour model shoot is **\$200** (or \$400 for two hours).

This fee includes as many different looks as you can do in one hour.

The fee also includes minor retouching and web sized digital files of all the portraits from the session.

A Model Headshot Session is **\$150** and includes your session, editing, and full rights to one HD digital file.
